Why the Stars Twinkle.

Perhaps you remember that in youth some kindly elder soul took you into the darkness of some glorious summer night and pointed out the stars and planets, telling you glibly enough that the twinkling of a overhead was a planet, while "that blue one down there which twinkles" was a star. The fact that planets shone only or mainly with reflected light, while the stars "burned," was supposed to explain the twinkling, as against the steady radiance. Even this young illusion is dispelled by a British scientist who says:

The twinkling of the stars is chiefly an effect produced in our atmosphere upon the waves of light. It is due to currents and strata of air of different densities intermingled and floating past each other, through which the light passes to the eye. It is seen much more in cold than in warm weather, and in a high barometer more than overhead. The same effect may be seen by looking out of the window over a hot radiator, or at a candle held on the other side of a hot stove, so that one must look through a body of highly heated air at the candle flame. The flame will be seen to waver and quiver. The various layers of the air are at different densities and in motion. Rapid twinkling of the stars is a sign of a change of weather.

The Wisdom of Catholic Monks.

In the days when wars were between prince and prince, nations paid less of the expenses. At present the masses must intervene in affairs and with that system frightful destructions happen.

If gamblers agreed to cheat there would be no more cheating.

I am of those who think that the best way to see the world is to see it through the great poems.

The trouble and fear that the force of sheer affirmation produces is not enough known. All the evil done of journalism comes of knowing how to affirm.

To think of success in the joy that it gives to a friend is to drink one's nectar in a golden cup.

Proof of inherent narrow mindedness: love for narrow minded people.

When superior men are mistaken, they are superior in that as in all else. They see more falsely than small or mediocre minds.

To know that one is a force is a consolation for many things that are cruel and bitter in life. Self-consciousness is worth more than glory. I know nothing similar to such a destiny.

"We never live, we await life." What a beautiful line and what a sad thing!

In things where the heart is not, the hand is never powerful.

If Jodas were alive he would be prime minister.

Only the fact of our life makes us think. The rest of thought is philosophy—a hole made with a cork-screw in a cloud.

Man is so profoundly vile that he makes acts which he does not understand villainous, because only in that way is he sure of understanding them.

Men give their measure by their admirations.

"The Only Thing That Will Relieve Neuralgia."

The piercing pains of Neuralgia, which often follows a bad cold or La Grippe, are frequently almost unbearable and few medicines afford any relief to the sufferer.

"I am a rural mail carrier and have been a user of the Dr. Miles' Anti-Pain Pills for years.

Dr. Miles' Anti-Pain Pills can't be beaten. They are the only thing I have found that will relieve my neuralgia and I have tried most everything, besides medicine from the doctor. I am willing to tell anyone what the Anti-Pain Pills did for me."

CHARLES HILDEBRANDT, Box 205 Woodville, Ohio

If you, like Mr. Hildebrandt, "have tried most everything" in vain, why not do as he did, fight your aches and pains with Dr. Miles' Anti-Pain Pills. Let the pills bear the brunt of the battle. No matter how stubborn the contest, they will come out victorious.

Dr. Miles' Anti-Pain Pills stand on their record, which is a long list of cures extending back a generation.
